

Muhammad Rafay

Portfolio RAG Knowledge Base

Canonical, retrieval-friendly profile source for the portfolio AI assistant. Prepared from the portfolio information supplied by Muhammad Rafay.

Identity and Professional Profile

Name	Muhammad Rafay
Location	Kohat, Pakistan
Degree	BS Computer Science, Kohat University of Science and Technology (KUST), 2026
Academic CGPA	3.68
Professional focus	Front-End Developer, React and Next.js Engineer, and builder of AI-powered web applications.
Career status	Open to opportunities.
Professional summary	Muhammad Rafay is a Computer Science graduate focused on building modern, responsive, performant web applications. His primary front-end stack includes React.js, Next.js, TypeScript, Tailwind CSS, JavaScript, HTML5, and CSS3. He also works with APIs, Firebase, Supabase, deployment platforms, and AI integrations.

Education

Institution	Kohat University of Science and Technology (KUST)
Degree	Bachelor of Science in Computer Science
Graduation year	2026
CGPA	3.68
Academic focus	Computer Science with practical work in modern web development, APIs, databases, and AI-powered applications.

Technical Skills

Frontend	React.js; Next.js; TypeScript; Tailwind CSS; JavaScript; HTML5 / CSS3
Data and APIs	Firebase; Supabase; REST APIs
Tools and deployment	Git / GitHub; Vercel; Netlify
Productivity tools	MS Word; MS Excel; PowerPoint

AI integration	Experience integrating Groq API based language models into web applications, including AI recommendation functionality.
-----------------------	---

Project: NutriSmart

Type	Final Year Project
Description	An AI-based personalized diet and fitness planner. It is a full-stack application with an AI recommendation engine that generates tailored nutrition and fitness plans.
Technology	React.js; Tailwind CSS; Firebase; Groq API
AI model noted in portfolio	Llama 3.3-70B through the Groq API
Relevant capability	Demonstrates experience connecting a web interface and application data with an external large language model API.

Project: Roiser E-commerce

Type	Web App
Description	A modern e-commerce storefront designed for smooth product browsing and checkout flows.
Technology	React.js; Redux Toolkit; Tailwind CSS; React Router; React Query; REST API
Deployment	Vercel
Live URL	https://roiser-ecommerce-by-mr.vercel.app/

Project: The Wild Oasis

Type	Admin Dashboard
Description	A cabin and hotel booking management dashboard for staff to manage bookings, guests, and cabins.
Technology	React.js; Supabase; React Query
Live URL	https://wild-oasis-by-m-r.vercel.app/

Project: Forkify

Type	Web App
Description	A recipe search and bookmarking application where users can search recipes, adjust servings, and save favorites.

Technology	JavaScript; REST API
Live URL	https://forkify-mr09.netlify.app/

Professional Experience: Uzair Tech

Role	Front-End Developer
Organization	Uzair Tech (Software House)
Duration	5 months
Responsibilities	Built and maintained responsive user interfaces using React.js and modern front-end tooling. Collaborated with the development team to translate designs into functional, production-ready pages.

Additional Experience

Role	Academic Content and Composing Specialist / Tutor
Organization	Ideal Public School and Private Tutoring, Kohat
Duration	Approximately 5 years, part-time
Responsibilities	Composed, formatted, and designed structured examination papers and academic layouts using MS Word, Excel, and PowerPoint. Tutored students across multiple subjects while managing curriculum schedules and academic commitments.
Skills developed	Communication, document layout, organization, and time management.

Development Approach

UI engineering	Focuses on turning requirements and designs into clean, interactive, responsive user interfaces.
API work	Has experience integrating REST APIs and working with application data.
State and data handling	Has worked with state-management and data-fetching tools including Redux Toolkit and React Query.
Quality focus	Values clean code, responsive design, maintainability, performance, and production-ready interfaces.
AI-powered web development	Interested in combining modern web engineering with practical AI capabilities.

Current Portfolio Technology

Framework	Next.js
------------------	---------

UI	React and Tailwind CSS
Language	TypeScript
Animation	Framer Motion
Icons	Lucide React
Design direction	Dark developer-oriented interface using slate tones with teal and violet accents, responsive layouts, subtle motion, and accessibility considerations.

Frequently Asked Questions

These question-answer pairs provide retrieval-friendly phrasing for common visitor questions.

Who is Muhammad Rafay?

Muhammad Rafay is a BS Computer Science graduate from KUST and a front-end developer focused on React, Next.js, TypeScript, responsive interfaces, APIs, and AI-powered web applications.

Where is Muhammad Rafay based?

He is based in Kohat, Pakistan.

What is Muhammad Rafay's degree?

He completed a BS in Computer Science from Kohat University of Science and Technology (KUST), with graduation listed as 2026.

What is his CGPA?

His portfolio lists an academic CGPA of 3.68.

What are his main frontend skills?

React.js, Next.js, TypeScript, Tailwind CSS, JavaScript, HTML5, and CSS3.

Does he have API experience?

Yes. His portfolio lists REST APIs, and his projects use APIs and external services.

Does he have AI development experience?

Yes. NutriSmart uses the Groq API with Llama 3.3-70B for personalized nutrition and fitness recommendations.

What professional development experience does he have?

He worked for 5 months as a Front-End Developer at Uzair Tech, where he built responsive interfaces and collaborated on production-ready pages.

What is NutriSmart?

NutriSmart is his final year project, an AI-based personalized diet and fitness planner built with React.js, Tailwind CSS, Firebase, and the Groq API.

What is Roiser E-commerce?

Roiser E-commerce is a React-based storefront using Redux Toolkit, Tailwind CSS, React Router, React Query, and REST APIs.

What is The Wild Oasis?

The Wild Oasis is a staff-facing cabin and hotel booking management dashboard built with React.js, Supabase, and React Query.

What is Forkify?

Forkify is a JavaScript recipe search and bookmarking application that uses a REST API.

Is Muhammad Rafay open to work?

Yes. His portfolio status says he is open to opportunities.

How can someone contact him?

The portfolio provides GitHub, LinkedIn, X, email, phone, and WhatsApp contact options.

RAG Assistant Grounding Rules

1. Use this document as the authoritative portfolio knowledge source.
2. Answer only from retrieved information that is supported by this knowledge base.
3. If the requested fact is not present, say that the portfolio knowledge base does not contain that information.
4. Do not invent employers, dates, certifications, technologies, project features, achievements, or personal details.
5. When useful, mention the relevant project or experience that supports an answer.
6. Keep visitor-facing answers concise, professional, and specific.
7. For contact questions, return only contact details that are explicitly present in this knowledge base.

Knowledge-base version: 1.0 | Intended next step: extraction, chunking, embeddings, FAISS indexing, retrieval, and Groq generation.
